DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This L-shaped two story, five bay brick house would appear to date from the second quarter of the 19th century and most probably from the 1840's. It is built with Flemish bond at the front elevation and common bonding at the side and rear walls. Apparently the back wing was one and a half stories high and was raised to two stories along one side with a frame addition. Interior features include six panel doors, with German elbow locks and a central stair case with delicate applied trim on the ends of the risers. A large frame bank barn and various outbuildings are also part of the complex.
